Dear Pam -

Just a note to acknowledge & thank you for the refund check from Ozark and all the effort you put forth to get it for me. Also I would like to extend my thanks again for all the warmth and consideration you and the family extended to me on my visit. The glow still lingers and I remember it fondly.

My trip to Chicago - N.Y. went well - there was some delay by the American airline flight to N.Y. so we arrived about an hour late, but I wasn't disturbed about - was glad to get back in time to get on the air at WWYC next morning.

I have had some thoughts about the typing and Security Box you plan to buy. Since we are making master copies of this essential material which we discussed and outlined. and since we will eventually publish this why can we not take the expenses for this out of
(over)

the funds of Barbara which you mentioned will be defaulted to the state if not used. When material is published, funds collected will go back into her other fund which you and your mother are keeping for her. Let me know your thoughts on this -

As we continue to sort out and evaluate Barbara's work, I want to make it available to the public - don't want to hide anything - we must share with the world.

Let's keep in close touch on these matters and let things evolve without being pushed - we will get a lot done.

Pam, you have bolstered my morale with your enthusiasm and integrity - I admire and respect and love you. I feel that we can continue to develop this work and take it a long way from where it has been given to us. I look forward to a creative, dynamic association with you. Bye for now - my best to Joe, a big hug for Judy and you and lots of love to you all - Audie
